CAREER OBJECTIVE

B.Tech final year student with strong DSA knowledge and hands-on experience in Python-based machine learning, data analytics. Interested in building practical solutions to real-world problems and seeking an opportunity as an AI/ML Engineer.

EDUCATION

Jaipur Engineering College and Research Centre
Bachelor in Information Technology : 8.7 CGPA

2023 – 2027
Jaipur, Rajasthan

TECHNICAL SKILLS

Languages – C/C++ (DSA), Python, SQL, Data Analytics.

AI/ML Technologies – Machine Learning.

Development Tools & Platform – Git, GitHub, Jupyter Notebook, Power BI.

Concepts & Domains – DSA, DBMS, OOP, AI/ML, Computer Networks, Operating System.

Soft Skills – Problem-Solving, Teamwork, Communication, Leadership, Fast Learner, Growth Mindset.

INTERNSHIP & TRAINING EXPERIENCE

- **Devvut Softect Pvt. Ltd , Jaipur | Web Designing | (July 2024 – August 2024)** [Link](#)
 - Proficient in HTML , CSS , JavaScript , Responsive design and media query .
 - Advanced HTML and CSS , introduction to front-end development , and a web design project.
- **Jyesta Corporate Entity |Data Science Intern | (12 August 2025 – 12 October 2025)** [Link](#)
 - Trained in Data Science fundamentals and real-world applications.
 - Worked on data handling, analysis, and basic modeling techniques.
 - Gained exposure to practical workflows used in data-driven projects.

PROJECTS

- **Calculator Website | Dynamic Calculator** [Link](#)
 - Technologies used :- HTML , CSS , JavaScript .
 - The website design is simple and modern with a focus on the calculation.
 - The website also has a navigation bar at the top with links to "HOME", "EXPLORE" , “FOR YOU” etc.
- **Emergency Vehicle Road Prediction** — [Link](#)
 - Technologies used: Python, Pandas, NumPy, Scikit-Learn, Flask, Web Development (HTML/CSS/JavaScript).
 - The model predicts road suitability and priority routing for emergency vehicles based on traffic and road network features. Performed data preprocessing, feature engineering, and normalization of spatial/traffic data.
 - Built and deployed a web application using Flask, where users can interact with the model and view predictions through a simple web interface. Integrated frontend using HTML/CSS/JavaScript for better user experience.

CERTIFICATIONS

- **Data Science for beginners** : Introduce to AI and basic of machine learning. [Link](#)
- **Java Programming Fundamentals** : Proficient in OOP, control structures. [Link](#)

ACHIEVEMENTS

- Solved **200+ DSA** problems on LeetCode. [Link](#)
- Secured **2nd position** at ScreenFlex - Web Development Event (March '25) at Renaissance (JECRC Annual Fest).
- Secured **1st position** at Programmers Playground – Competitive Programming Event (March '25) at Renaissance (JECRC Annual Fest).
- Participant, Bharatiya Antariksh Hackathon conducted by **ISRO 2025** - Represented and pitched ideas for solving space-tech related challenges and contributed to team discussions and brainstorming sessions during the event.
